

## Master logic color wooden strategie game

Pod Thailand

Mastermind, Super Brain, who cracks the super color code of the opponent in 6 steps wooden game Monkey

Mastermind gives every player the chance to outsmart their opponent. As a codemaker: Your goal is to develop a mystery code that is so clever that it lets your opponent guess for a long time and he does not come up with it. Your code can be put together to any combination of the six colored pencils. As a code breaker: You have to break the secret code in as few steps as possible, exactly 6. You have up to 6 chances to hit your opponent's code (guessing the right colors in the right order). For decades, players have enjoyed the challenge of creating and breaking codes. It's easy to learn but not easy to win! Super brain is in demand and endurance ...
