ludo box with pins travel dice game

ludjamgo dice game in wooden box with pins for traveling monkey pod game thailand

Man do not fret out here a version in the game box of the successful game for the family ... kick out duty .... Ludo, or human trouble Do not, is great fun for two to four players in which the dice fall and strategic Decisions are made to win the game. The players start their four pawns in the house and run from start to finish according to the numbers that are rolled. During the game, players will move from their home position clockwise around the perimeter of the board to the target points pointing to the center. Each player can only start his goal in his color. The winner is the player whose four game pieces end the journey first. The game contains a wooden board, 16 pegs and a wooden cube. It comes complete with instructions, a wooden box and matching lid ...
