solitaire round medium strategy game

solitaire round wooden playing board medium with wooden balls from monkey pod wood Thailand

At the Solitaire you distribute the balls on the field so that the middle trough remains free. Now begins the Solitaire game in which you skip another with a ball. Skipping is only possible in horizontal and vertical direction (not diagonal). It is always skipped a ball which is then removed from the whistle play. In the end, only one bullet should be left in the middle, that would be the jackpot. A challenging game with many variations that will give you a lot of pleasure ...
